ARREST RINGLEADERS

Cuban Authorities Take Steps to Suppress Revolt.

MOVEMENT NOT DANGEROUS

Havana Press Declares It to Be Suicidal and Unpatriotic—Conspirators Appear to Be Well Supplied With Money.

Havana, Sept. 27.—The following statement was given out by Governor Magoon Thursday evening:

"The governor issued a statement this afternoon in which he said, regarding the arrest of Masso Parra, Juan Ducassi and Lara Miret, that he had been advised of their actions for some time past and had waited for them to carry out their work to some definite end. He was well aware of their conspiracy and deemed it advisable to put an end to the disturbance they were creating.

"To this the governor would add that Cuba has many important questions to occupy its attention for the next six or eight months and it is desired that the minds of the people be not distracted from these important matters by agitators and disturbers of the peace and tranquillity of the island.

"The men arrested appear to be the leaders and directors of this movement and although others are known to have participated in their meetings and to have promised men and arms for the movement it was not thought necessary to arrest these persons, except in case of further developments. Their detention can be accomplished whenever desired.

"The completion of the census for the coming elections and the continuance of the road building already inaugurated as well as many other necessary public works must be completed as soon as possible in order that when Cuba is turned over to its newly elected president, the government will be on a fair working basis and free from the annoyances of petty would-be military adventurers."

TRYING TO LOCATE AMERICANS.

"Every effort is being made to ascertain the identity of the person who Wednesday night sent a news cablegram to a New York newspaper, as it is believed that this knowledge will be a valuable clue toward locating the Americans here who are interested in the movement. It appears that this cablegram was brought into the cable office by a negro, and it is believed this man can be found.

"In the government's line of its case it is said that James T. Barber in sending one of his men to Idaho, was heard to remark: "If there is anything you want in Idaho go to William E. Borah. He is our attorney out there."

TO BE NAMED NORTH DAKOTA

President Selects Title of Mammoth Battleship.

Washington, Sept. 27.—The Northwest won a victory Thursday at the White House over the naval establishment and North Dakota carried off the honors of the occasion. The plan to name the great battleship No. 23 New York was vetoed by President Roosevelt and the ship will bear the name North Dakota.

Senator McCumber was a caller at the White House and the navy department to inquire regarding the battleship question and incidentally to convey the information to President Roosevelt that "North Dakota is still for him," and the information was given regarding the good fortune of North Dakota in winning the name of the great ship.

Secretary Metcalf and other naval officials were ardently desirous that the new battleship—the largest ever built by the nation—should bear the name of the Empire state. In order to carry out this plan it became necessary to arrange to change the name of the cruiser New York and the suggestion was that the cruiser should be given the name Saratoga.

President Roosevelt looked over the list of names borne by ships of the navy and selected from the cities of the Empire state and concluded that the addition of another New York name in addition to the name of the state for the new battleship would be rather overdoing it. For this reason it was decided to retain the name New York for the cruiser and give North Dakota the honor of having her name borne on the greatest ship of the American navy.

This leaves only one state in the Union not represented among the great ships of the line. That state is Utah.

TWO INJURED IN AUTO ACCIDENT.

Chicago, Sept. 27.—An automobile in which were riding B. N. Lynch and John Joss, both of Chicago, plunged seventy feet into a stone quarry near Lyons, a suburb of Chicago. Lynch who was driving the car, jumped from the car, but fell to the rocks in the bottom of the pit, sustaining serious injuries. Joss escaped with slight injuries.

CARRIE NATION RELEASED.

Washington, Sept. 27.—Mrs. Carrie Nation, recently confined to the workhouse for refusal to pay a fine of \$25 as a penalty for disorderly conduct, was released Thursday, her fine having been paid by a friend.

CASE OF THE GOVERNMENT

Outlined to the Jury in the Trial of Senator Borah.

Boise, Ida., Sept. 27.—In the trial of Senator William E. Borah, charged with timber land frauds, former Judge Burch of Detroit, special prosecutor, outlined the government's case against the senator. It was stated to the jury that the idea of making money out of timber lands which the United States threw open to settlement in Idaho in tracts not to exceed 160 acres to any individual and at a price not to exceed \$2.50 per acre, originated with State Senator John Kincaid, one of the men indicted with Senator Borah. He is alleged to have gathered several men around him, among them the late Governor Steunenberg and William Sweet, a mining man. These two, it is alleged, put up the first \$75 as a joint note, being the security by which the alleged frauds were inaugurated.

About this time (in 1899) Attorney Burch asserts, Governor Steunenberg went to a conference called presumably for the patriotic purpose of putting down the mining troubles and while there met a mine owner named A. B. Campbell. Through Campbell, it is alleged, Steunenberg, who had exhausted his personal resources, met Barber and Moon, who immediately took a deep interest in Idaho timber lands. Governor Steunenberg soon had a bank account of \$28,000, it is alleged, which he checked from an "agent."

In connecting Senator Borah with the conspiracy, Mr. Burch says the government will show that all deeds from "dummy" trustees to the Barber Lurber company passed through his office and were recorded, as the records will show, at his request. It is further stated that when four of five fraudulent claims were held up, Mr. Borah went to the home of the register of the local land office and made inquiry as to what was to be done concerning them. The register told him, it is said, that the claims were fraudulent and had better be left alone. It is further charged that on one occasion when Governor Morrison was executive of Idaho and about to file a state preference on certain timber lands for school purposes, Senator Borah went to him and sought information as to what lands the state planned to take and said he did not think it was right that the state should take such lands.

In the government's line of its case it is said that James T. Barber in sending one of his men to Idaho, was heard to remark: "If there is anything you want in Idaho go to William E. Borah. He is our attorney out there."

ONE WHITE BOY AND THIRTEEN NEGROES DROWNED.

Mobile, Ala., Sept. 27.—A ferryboat crossing the Tombigbee river at the government works at McGraw shoals, near Jackson, Ala., was capsized, drowning one white boy and thirteen negroes. The boy was Leslie Vermeille, sixteen years of age, residing in Oakdale, a suburb of this city.

The scene of the accident has long been regarded as a very dangerous place by navigators of the river on account of the rapid and treacherous current and the rocky shoals there.

PROFITS OF PIPE LINE

In One Year They Exceeded Company's Investment.

TO SHUT OUT INDEPENDENTS

Government Prosecutor Seeks to Show Indiana Concern Maintained a High Schedule of Tariffs—Its Profits Alleged to Be Excessive.

New York, Sept. 27.—The Indiana Pipe Line company, a subsidiary of the Standard Oil, made profit of \$4,091,022 in 1903 on a total investment of \$2,228,758, according to the company's figures produced by George Chesebro, controller of the National Pipe Line company, who appeared as a witness Thursday in the federal suit against the oil combine. Mr. Chesebro testified that the Indiana Pipe Line company was a common carrier only in the transportation of oil. From balance sheets of the company Frank B. Kellogg, conducting the government's case, sought to show that the Indiana company was making excessive profits and that it maintained a high schedule of tariffs to prevent shipments of oil by independent oil producers. Mr. Chesebro testified that the Indiana company transported practically only the oil of the Standard company. The counsel for the government alleged that it will be shown that the profits made by these pipe line companies have in some cases been twenty times the actual cost of operation.

ON ADVICE OF MILBURN.

Calvin N. Payne, who, with H. C. Folger, Jr., owns the Corsicana Refining company of Texas, under examination Thursday stated that tanks and receiving stations at the end of the pipe line of the New York Transit company, now called the National Transit company at Center Bridge, Pa., and Fond Grove, Pa., were built the year the Hepburn law went into effect.

Mr. Payne was stating that he supposed there was some legal reason for building these receiving stations on the state lines of New York and New Jersey, Pennsylvania and Maryland, when John G. Milburn, chief of the defendant's counsel, interposed and said he gave the advice.

Mr. Milburn, cross-examining the witness, developed the testimony that the pipe lines connecting the terminals at Unionville, Center Bridge and Fond Grove with tidewater at New York and Baltimore were the private lines of the Standard Oil company of New Jersey, and were not public carriers.

Mr. Payne said that the National and New York Transit companies were prepared to accept business over the lines and to deliver it at their receiving stations.

FERRYBOAT CAPSIZES.

One White Boy and Thirteen Negroes Drowned.

Mobile, Ala., Sept. 27.—A ferryboat crossing the Tombigbee river at the government works at McGraw shoals, near Jackson, Ala., was capsized, drowning one white boy and thirteen negroes. The boy was Leslie Vermeille, sixteen years of age, residing in Oakdale, a suburb of this city.

The scene of the accident has long been regarded as a very dangerous place by navigators of the river on account of the rapid and treacherous current and the rocky shoals there.

FOUR MINERS KILLED.

Met Violent Deaths in Mines Around Steubenville, O.

Steubenville, O., Sept. 27.—Four men met violent deaths in the mines around Steubenville Thursday. George Childs, an English coal miner, was killed at Rayland mine by a fall of stone. Pete Hills, an Italian miner, was killed at Ramsey mine tipple while attempting to board a coal car. George Ewing was killed at Stewartsville mine by a fall of stone and Mike Hall was killed at Brilliant dam by a steel cable that snapped and struck him on the head.

NINE PERSONS MAY DIE.

Poisoned as a Result of Eating Ice Cream.

Statesboro, Ga., Sept. 27.—Cone Hagan, a farmer living near here, and eight children are unconscious as the result of eating ice cream in which condensed milk had been used. A physician found all of them unconscious from ptomaine poisoning. It is feared that none of them will survive. Hagan is a widower.

FEAR TROUBLE WITH GERMANY.

St. Petersburg, Sept. 27.—The comment here on the Anglo-Russian convention is marked by the apparently unanimous conviction that the most dangerous antagonist of Russia is well as of Great Britain, is Germany, with which country a decisive struggle is alleged to be pending.

"The Proof of the pudding is the eating thereof"

So runs an "old saying" which has been proven to be true many times over. We wish to apply this to our winter coats. We have had an exceptionally large sale of ladies coats and we can account for this for no other reason than for their meritorious qualities. It may seem hard to believe but we have found it necessary to reorder garments at this early date. They who purchase now will secure the choicest garments to be obtained—of course we will have good ones later but the best are to be had right now.

H. F. MICHAEL CO.

We will show a beautiful line of new veilings tomorrow

These we just received from New York. You'll like them, we are sure, and they are all most reasonably priced.

H. F. MICHAEL CO.

Be sure you look at our underwear ere you purchase

We believe that you'll find what you want and we know that you'll find all reasonably priced. We at least trust that you will permit us to show you our lines.

H. F. MICHAEL CO.

MANY SAVED FROM FIRE.

Damage of \$75,000 to Building in Burlington, Ia.

Burlington, Ia., Sept. 27.—Fire starting in the basement of the Tama building, one of the finest business blocks in Burlington, completely gutted the basement and lower story, occupied by the L. B. Ringold Clothing company and several other firms. The damage probably will reach \$75,000, largely covered by insurance. The building is largely given over to offices in the upper stories, and the heavy smoke cut off a number of people.

The tenants of the upper floors fled for their lives and 5,000 people watched the thrilling rescue of these people by the firemen down the fire escapes.

ON THE WAY TO MEXICO.

St. Louis, Sept. 27.—Secretary of State Elihu Root, accompanied by his wife, daughter and private secretary, passed through St. Louis Thursday night on their way to Mexico City, Mexico, where they will be entertained by President Diaz and where Secretary Root will spend several weeks dealing with questions of state.

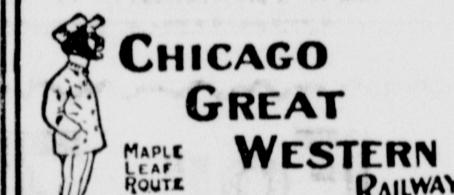

CHARACTER.

According to an old French saying, "A man's character is like his shadow, which sometimes follows and sometimes precedes him and which is occasionally longer, occasionally shorter than he is."

Few men have been admired by their own domestics.—Montaigne.

W. P. Loeke came down on the freight last night and is spending the day in the city.

Wesley Small returned today from a trip to Duluth in the interests of the Minneapolis Tribune.

D. M. Clark & Co., largest install-ment house in the city. Goods sold on easy terms. 233tf

The North Star base ball team goes to Little Falls tomorrow noon to play ball at the Morrison county fair.

Hon. C. A. Lindbergh came down from Pine River last night and went to his home in Little Falls this morning.

Charles Bush came down from Be-midji sick with bowel trouble yester-day, but is reported on the mend today.

Most of the Brainerd people who went to Pequot yesterday returned on the freight, which left there about six o'clock.

Cole's Hot Blast gives more heat with coal than any other stove. D. M. Clark & Co., agents. 97tf

Mrs. Beresford, daughter of Mr. and Mrs. T. E. Smith, returned to her home at Bald Eagle Lake today after a visit with her parents.

Mesdames Ribble, Hanft, Johnson, Clark and Cullen returned Monday from Hubert where they were entertained by Mrs. Sanborn.

The Royal League, a fraternal in-surance order recently organized here initiated a class last evening and re-pored a pleasant time.

A. E. Moberg returned last night from the west to make final arrange-ments to take his family to their new home at Mt. Vernon, Wash.

Thomas Robinson, government en-gineer, was in the city today on his way back from a visit to the Sandy lake dam to that at Cross lake.

D. M. Clark & Co. are agents for the Stewart, Favorite and Morton burner. 97tf

With a couple of weeks of good weather the Sleeper block will look much different from now. A good sized crew is at work there today.

If you are about to entertain, be sure Hunt's Perfect Baking Powder and Ex-tracts are among your supplies as an insurance against baking failures.

J. C. Schultz, traveling auditor and claim agent of the Minnesota & International railroad company, returned to-day from a business trip up the road.

C. Millspaugh fell jumping out of the wagon of the Laurel laundry this forenoon and sprained his ankle badly. He will be laid up for some time it is thought.

Pole & Wood started their lath mill again yesterday after a shut down of a couple of months for lack of timber. They expect to run steadily until into the winter.

Advertise in THE DISPATCH—it pays!

Rev. A. H. Seder returned today from a ten days visit at the twin cities and Arcadia, Wis. The district conference of the German Evangelical church has been in session in Minneapolis this week.

Jay O'Brien left today for the south. He stated to a DISPATCH representative that he goes from here to Tucson, Arizona, and from there to Mexico, where he has a position with the Oliver Mining company.

The Human Hearts company arrived today from Superior and will play at the opera house today. They are a strong company and the play is a very interesting one as Brainerd theatre patrons well know.

Look to us for the latest in millinery. Our stock is larger than ever, and, the prices as ever are the lowest. B. Kaatz & Son.

Con Witte, of Northeast Brainerd, is back from a visit to Ft. Wayne, Ind., where he was called by the death of a relative. He was absent about two weeks and enjoyed a visit with school-mates of thirty years ago.

Mrs. T. J. Sanborn entertained a number of ladies at Bide-a-wee cottage Hubert. "500" was played, after which a very dainty 3 course dinner was served. Prizes were awarded to the following: Mrs. D. M. Clark 1st prize; Mrs. James Cullen 2nd and Mrs. Bert Parker consolation.

KIRK'S JAPANESE soap is the second less than half the cost of any brand of really good transparent soap. Druggists and general

Geo. Bush, son of Conductor J. W. Bush, who is brakeman on the Minnesota Division, is in the city undergoing treatment at the Northern Pacific hospital, having had his shoulder pinched be-tween two cars. He is able to be around and is enjoying a visit at his father's home while here.

Have you seen our line of Ladies, Misses and Children's coats? Better look them over before buying, it will pay you. B. Kaatz & Son.

Mr. and Mrs. I. T. Dean are expect-ing to leave next week for a trip to their old home in southeastern Ohio. They will be absent at least a month and perhaps longer. Mr. D. E. Whi-ney, of Clearwater, Minn., a licensed embalmer, funeral director and frame maker is expected Monday to assist Mr. Losey during Mr. Dean's absence.

Healty kidneys filter the impurities from the blood, and unless they do this good health is impossible. Foley's Kid-ney Cure makes sound kidneys and will positively cure all foams of kidney and bladder disease. It strengthens the whole system. For sale by H. P. Dunn & Co. mwf-dw

THE PICTURE CRITIC.

If He Doesn't "Quits Like the Face," That Settles It.

Some liberal minded people will admit to you that a slight preliminary training is required before a serious attempt is made to criticise music, but almost anybody with eyes is willing to embark buoyantly on the job of tearing a picture to pieces. This seems to be because the picture will stand without hitching. Moreover, it will patient-ly submit to all the verbal harpoons you find time and strength to throw, and the average friendly critic will find sufficient of both to make even a reasonably good painting look like a cross between a fourteenth century St. Sebastian and a hedgehog.

Music, on the contrary, is both pro-longed and evanescent, and by the time the composition is finished and the applause has quieted down the critic has forgotten most of the good things he intended to say to its de-ment.

But the picture stays, irritating you by its mere passive endurance to the point where after awhile you feel that if you don't say something to destroy its snug self complacency it will go on thinking that it's all right.

So then you begin to work over it, and you say: "Yes, I see now. It looked pretty good at first, but that arm is hopelessly bad, and I don't quite like the face." There's nothing to be done if you don't "quite like the face;" there's no answer to that proposition. It's a clincher. Rembrandt himself would have wilted and would probably have given up trying to be an "old master."—Everybody's.

Use Found For Pine Cones.

Considerable interest is being manifested in the sale of pine cones in Grand Rapids, Wis. The cones hitherto have been considered worthless, says the St. Paul Dispatch. Jens Hen-dricks, representing the Evergreen Nursery company of Sturgeon Bay, has been at Grand Rapids recently making arrangements to buy cones, paying at the rate of 25 cents a bushel for them in any quantity. He accepts only the white pine variety. It is announced jack pine and Norway cones will be sought later in the season. It is rumored that the nursery company is buying these cones for foreign shipment in order to start forests in the cut over regions in northern Europe.

WALKER'S DRY HUMOR.

Rear Admiral's Apt Reply to Man Who Tried His Patience.

When the late Rear Admiral John G. Walker became one of the Panama canal commissioners, he had his pa-tience somewhat tried by persons who had been to the isthmus giving him gratuitous information concerning the climate there, says the New York Press.

One man informed him that after returning from a journey to the place he went to his physician to learn if he had malaria in his system. The doctor showed him a drop of his blood under a microscope, "and," said the narrator, "it was full of the microbes of malaria. They looked like a lot of lively potato bugs."

"Then what you need, I should think," said the admiral dryly, "would be a dose of insect powder."

Admiral Walker devoted more time to canal matters than to fashion plates and could hardly be called spick and span in the civilian clothes he wore at his work. A stranger would far more likely have taken Admiral Walker for a countryman than a retired army officer. His long whiskers were of the type so popular with rural dramas, and his rolling walk might well have been taken for the movement acquired by following a plow.

A brusque young man in search of the canal commission encountered Admiral Walker in a corridor of the Coro-can building in Washington and asked pertly:

"Can you tell me where I will find Walker?"

"Yes," Admiral Walker replied. "Just come with me."

The dapper young fellow followed Admiral Walker into his office. The admiral took a seat behind his desk and invited the young man to sit down.

"Well, what can I do for you?" Admiral Walker asked of the young man, who began to squirm uneasily in his chair.

"I am Walker," the admiral con-tinued. "John G. Walker is my full name, but you might call me Jack for short."

Unable to summon up enough voice to apologize, the young fellow rushed out of the office without saying a word.

WIRELESS CALL FOR COPS.

Californian Proposes to Put Telegraph Receivers In Their Helmets.

Assistant City Electrician Charles N. Farmer of Berkeley, Cal., has erected a wireless pole on the site for the new town hall of San Francisco and is experimenting with a scheme to call policemen from their beats by wireless, says a San Francisco dispatch to the New York Sun.

A simple apparatus or compact form which policemen will carry in their helmets is the means by which he hopes to revolutionize the police and fire alarm systems.

The chief of police turns on the current, and wireless impulses are sent out in all directions. The invisible current comes into contact with the coil in the patrolman's hat and rings a bell in his pocket. The message is sent in the form of dots and dashes. Though a policeman may not understand the communication, he will know he is wanted by the ringing of the bell in his pocket. He will then hasten to the nearest police box and telephone the police station.

GRAND OLD BUSH.

Has Furnished Gooseberries For Wed-ding Pies For Over Fifty Years.

When George W. Wetzel of Bardolph, Ill., and his bride sat down to their wedding dinner fifty years ago, a gooseberry pie was on the bill of fare, says a special dispatch from Quincy, Ill., to the Chicago Inter Ocean. They celebrated their golden anniversary a few days ago with a big dinner, to which were invited their children, grandchildren and great-grandchildren, and another gooseberry pie was on the table, made of berries from the same bush that furnished the filling for the wedding pie half a century before.

Through fifty years the old bush has kept its post steadfastly, unwithered by age, and stands today as strong and rugged as in the days of its youth.

Wellington and Waterloo.

Heine, in speaking of Wellington's good luck at Waterloo, says: "This man has the bad fortune to meet with good fortune when the greatest man of the world is unfortunate. We see in him the victory of stupidity over genius—Arthur Wellington triumphant when Napoleon Bonaparte was overwhelmed. Wellington and Napoleon! It is a won-derful phenomenon that the human mind can at the same time think of both these names."

No Chance.

"Do you think his interest in art will ever amount to anything?"

"No," answered Miss Cayenne. "He is too well off to become an artist himself and not rich enough to become a connoisseur."—Washington Star.

What your tailor?
TRADE MARK REGISTERED 1906

THE "set" of the clothes either makes or mars a man's per-sonal appearance.

When you employ a tailor in whom you have confidence you put the matter of "right fitting" up to him and he takes the responsibility.

When you give us your order you are putting your case in the hands of our city tailors, Ed. V. Price & Company, and that is all the guar-antease you need to insure a perfect fit over your form.

For a reasonable price we will have them make your suit over your measure and we will guar-antee style, absolute fit, shape that holds and iron-like wear.

It's a treat just to look at our new Fall woolens as well as a pleasure to show them to you. Won't you call today?

D. A. PETERSON,

LECTURE COURSE FOR THE Y. M. C. A.

Course Contracted for by the Congregational Church Transferred to Association

FIVE FINE ENTERTAINMENTS

Are Promised to be Given at the Congregational Church as Before Announced

A part of the educational work to be done by the Young Men's Christian Association is placing before the community each season some good, entertaining and at the same time instructive, musical and literary features and that is what the Brainerd Y. M. C. A. is going to attempt to do this winter. It has recently taken over the course that the Congregational people had contracted for and it will now be operated entirely under association auspices, but the entertainments will be given in the Congregational church.

The following is the list of entertainments and their dates:

Dr. Elliott A. Boyl, Orator, Oct. 21, 1907.

Midland Concert Co. (Ladies) Nov. 9, 1907.

Lucey, De Bana Combination, Dec. 9, 1907.

Everett Kemp, (Reader and Harpist) Impersonator, Jan. 18, 1908.

Meistersingers (Male Quartette and Crayon Artist) Feb. 18, 1908.

Watch for later announcements.

Tonight at 8 p. m. all who are interested in boxing and fencing are to meet at the Y. M. C. A. at 8 o'clock to arrange quite definitely for the class work that is to be conducted in same this winter at the association.

Tomorrow forenoon from 9 to 10 boys between the ages of 12 and 15 will have their second gymnasium class work and from 10 to 11 a. m. those over 15 and high school students will meet for their class work.

The above mentioned class of juniors started off with a good enrollment yesterday and several new boys joined the association for that work.

Cured Hay Fever and Summer Cold.

A. J. Nausbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business." I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed to only aggravate my case. Fortunately I insisted upon having Foley's Honey and Tar in the yellow package, and it quickly cured me. My wife has since used Foley's Honey and Tar with the same success. For sale by H. P. Dunn & Co.

GALLERY CHANGES HANDS

A. P. Nelson Sells His Gallery at Pine River to A. M. Opsahl, Who Will Operate it.

Pine River Sentinel:—A. M. Opsahl, of Brainerd, has purchased the photo studio here of A. P. Nelson and will make his first visit here on October 1st and 3rd, and thereafter the first and third Wednesdays of each month. Mr. Opsahl is one of the best photographers in the state and can furnish Pine River the very best there is in the photographic line.

There is more Catararr in this section of the country than all other diseases put together, and until the last few years it was supposed to be incurable. For a great many years doctors pronounced it a local disease, probably hereditary, and by constantly failing to cure it with local treatments pronounced it incurable. Science has proven enthrall to be a constitutional disease and therefore requires constitutional treatment. Hall's Catararr Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drams to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by druggists, 75c.

Take Hall's Family Pills for constipation.

ON SPECIAL TRAIN

Sousa's Band Comes From St. Paul on Special Train—Performance

Same as in Evening

The manager of Sousa's Band telephoned Manager Fox this afternoon that the band would come from St. Paul by a special train Monday, arriving here at 1 o'clock sharp. The performance will be given complete, the same as in the evening, there being no features cut out because it is a matinee. This will be the only chance to hear America's greatest band and every citizen in Brainerd should make an effort to be present at the entertainment. The concert will begin at 2:00 o'clock sharp to permit the band to get to St. Cloud for an evening performance.

How to Avoid Appendicitis

Most victims of appendicitis are those who are habitually constipated. Orino Laxative Fruit Syrup cures chronic constipation by stimulating the liver and bowels, and restores the natural action of the bowels. Orino Laxative Fruit Syrup does not nauseate or gripe and is mild and pleasant to take. Refuse substitutes. H. P. Dunn & Co. mwf

FARM, HOME AND GARDEN

"When the frost is on the pumpkin, and the corn is the shock," "as Bill says," is the time to begin to think of the accommodations of the stock for winter. The price of feed will be high this winter, even higher than usual in this country, and it behoves every man who has any stock, be he farmer or city man, to see to it that he saves every particle possible. It is to be assumed that the year's fodder and grain on the farm has been gathered and the only way of saving hereafter is in economy of feeding. This brings one face to face with the question of shelter for stock. The large percentage of food which goes to keep up the bodily heat is well known, but seldom taken into practical consideration. Many a man says he can't afford to build warm shelter for his stock, when in fact he can't afford not to.

—o—

There is no more wasteful thing done on the American farm—and if the big trusts and railroads were as wasteful as the average farmer they would have all bursted without the aid of Teddy—there is no more wasteful thing done than to feed high priced feed to an animal which is shivering on the lee side of a jack pine. If sawed lumber is not available, log buildings chinked with mud beat the open air for a beast just as much as they do for a man. An animal well housed will come out in the spring hog fat on less feed than it will exist upon when out exposed to the weather.

—o—

Chickens, also will well repay a warm place for the winter, and also a partial vegetable diet. Throw their grain in among straw or chaff in the hen house and make them scratch in search of it. The exercise will help to keep them in good condition. But do not imagine that they need twenty degrees below zero temperature to make them keep from getting too fat. The hen house should be warm, warm enough so that fresh air can be introduced without danger of freezing the fowls. Then with a good variety of food there will be a fair supply of eggs when "eggs is eggs," as the old woman says. And that is when it pays to have them.

The New Pure Food and Drug Law

We are pleased to announce that Foley's Honey and Tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug Law as it pronounces it incurable. Science has proven enthrall to be a constitutional disease and therefore requires constitutional treatment. Hall's Catararr Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drams to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Take Hall's Family Pills for constipation.

FOR BOILER MAKERS BENEFIT

Dominion Stock Company to Put on Plays Tuesday and Wednesdays Evenings Next

BIG CROWDS ARE ASSURED

Sunday Ball Game Has Been Cancelled and Boilermakers will Push Entertainments

Arrangements have been made by which the Dominion Stock company which has been rehearsing here for the past week will present two plays for the benefit of the Boilermakers Union. On Tuesday evening they will present "Just After Sunset," a strong melodramatic play with a wide vein of comedy, and on Wednesday evening they will present the roaring farce comedy, "My Nephew's Wife." The boilermakers have called off the ball game scheduled for Sunday and will devote their entire attention to making these performances financially successful. That there will be a large sale of tickets is assured.

W. E. Fox will play important roles in both plays and the entire cast of the plays will be strong.

Letter to J. H. Noble, Brainerd, Minn.

Dear Sir: Let's talk it right out before folks; there's nothing to hide in your business or ours; if there is, we'd better hide ourselves.

We are in trade to make money; so are you. We make it by saving our customer's money; so do you. Our object, in trade, is to save your customers' wood from rotting and iron and steel and tin from rusting; yours the same.

We work for thousands of property owners; you for a few. We can do some things that you can't do; we have the facilities. You can do some things that we can't; you are there. Let us work together; be faithful to one another. We can serve our customers better by working together and being faithful to one-another.

Your dollar, put into our paint, will paint more feet than in any other way; and the paint will last longer. This saves you money, and saves your customers' money. That's all there is in our whole business.

Yours truly,
F. W. DEVOE & CO.
New York and Chicago.

Chas. M. Patek sells our paint.

BACK GIVES OUT

Plenty of Brainerd Readers Have This Experience

You tax the kidneys—overwork them—

They can't keep up the continual strain.

The back gives out—it aches and pains;

Urinary troubles set in.

Don't wait longege—take Doan's Kidney Pills.

Brainerd people tell you how they act.

David Northrup, 918 Front St., Brainerd, Minnesota, says: "Backache and kidney complaint were of short duration in my case after I began using Doan's Kidney Pills, procured at H. P. Dunn & Co.'s drug store. There has been a dull steady aching in my back and lameness across the loins. It only required one box of Doan's Kidney Pills to regulate the action of the kidneys to a normal condition, remove the backache and impart tone and strength to the parts affected. From the results I obtained I believe any sufferer from kidney complaint will find in Doan's Kidney Pills a most valuable remedy."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y. sole agents for the United States. Remember the name—Doans—and make no other.

Commission Arrives at Duluth.

Duluth, Sept. 27.—Bearing the members of the inland waterways commission, the steamer Thomas F. Cole of the Pittsburg fleet steamed through the canal piers late Thursday afternoon. The members were taken for a tour of the Duluth-Superior harbor and were guests of the Commercial club until they boarded a special train for St. Paul.

The Gerrymander.

The gerrymander, so called from its author, Elbridge Gerry, is a division of political boundaries by one party so as to insure the defeat of political opponents by placing them in districts containing a majority of hostile voters. It has been worked successfully in hundreds of cases since Gerry first tried it, although it is playing out as a political expedient. The gerrymander often defeats its purpose, as in the case of the late President McKinley, who was gerrymandered out of Congress in the old Sixteenth Ohio district only to be elected governor of the state for two terms by the Republicans and thence to go to Washington twice as president of the United States. Gerry first saw the light on July 17, 1744. He was vice president under Madison and had a long and distinguished career as a statesman. —Pittsburg Chronicle-Telegraph.

MUSIC AND DRAMA

Coming Attractions

Sept. 27—Human Hearts.
Sept. 30—Sousa's band, Matinee only.
Oct. 3—Isabel Irving in "The Girl Who Has Everything."
Oct. 5—Ezra Kendall in "Swell Elephant Jones."

"Human Hearts" Tonight

"Human Hearts," the melodramatic success announced at the opera house tonight appeals to every class of playgoers. It deals with a story that teems with heart interest from beginning to end. Tom Logan, an honest young blacksmith in the Arkansas Hills, falls in love with and marries a reformed confidence woman. The dull country life soon palls on her. She accidentally meets her former lover and "pal". Without any just cause they conspire together to ruin Tom and kill him if necessary. The woman calls him while her accomplice conceals himself. The father of Tom responds and is mistaken for the young blacksmith. He is fatally stabbed by the ambushed man. Tom, coming out to see where his father is, is accused by the adventuress and her "pal" of the murder. He is finally sentenced on that charge. But his friends ultimately establish his innocence and he is released. Retribution overtakes his villainous and murderous accusers. No play of its kind possesses a stronger plot or more sensational incidents. The serious element is mingled with comedy, forming a combination that never fails to touch a responsive chord in the hearts of playgoers. Prices 75, 50 and 25c.

Sousa's Band

Says the Red Wing (Minn.) Republican, March 21, 1906:—"John Philip Sousa and his wonderful band played one of their world-famous concerts at the Auditorium yesterday afternoon to an appreciative audience that packed the house. When it is considered that it was a matinee performance, on Tuesday afternoon during Lent, and that never before has the Auditorium contained so many people, the marvellous success of the entertainment can be appreciated. Over 1,200 seats were taken. This is the largest number that has yet been present at any entertainment ever held within Red Wing's municipal playhouse. To criticize Sousa's Band is impossible."

Sousa and his Band will play at the opera house Monday afternoon Sept. 30 at 2 o'clock sharp.

At The "Unique"

At the Unique the public was entertained last night with a very pleasant program. The illustrated song "Bye, Bye, Dearie" sung by Miss Kathleen Graham, was a treat, as it was a beautiful composition, handsomely illustrated and beautifully sung. "My Wild Irish Daisy," which she sang also, is the same piece which won such a hearty encore at the Hibernian banquet. "Dick Turpin's Ride to New York, is rather sensational piece and was well received. "Sambo, the Footman" and "The Drawing Teacher," proved both amusing and interesting. The second film was "The Best Girl in World," a study of child life and child love, "Spanish Views in Post Cards," a fine series of views in Spain," and "The Cake Walk," which portrayed the troubles of a man who had been too familiar with another man's wife and had signed an agreement to dance the cake walk whenever and wherever ordered, which he did—at the point of a revolver, until the other fellow forgot his gun, when the tables were turned.

"Bijou"

Another very strong program was presented last night. It contained an entirely new departure in moving pictures. "The Life of the Bee" is a nature study both interesting and instructive and something novel in films. "Dot Little German Band" and "Like Modern Mother" were extremely humorous. A Woodland Tragedy gave the dramatic tone to the performance and held attention of the audience closely. The illustrated song, "We Were Parted Years Ago," was a pathetic bit of slave history and was handsomely illustrated. It was beautifully sung by Miss Mahlum, as was the solo.

The City of Roses.

Shiraz itself is the most beautiful Persian city I saw. City of roses, city of poets, city of sunshine, it has always been famed for its loveliness. Under the brown hills and amid the gardens of roses and oranges there lived the poets Saadi and Hafiz and many another sweet Persian singer. Thence has come any inspiration which has ever animated the nationality of Persia, nor does this seem strange to one who has known days spent in the brown walled, cypress studded gardens and nights wrapped in soft stillness and bewitched by the power of the mystic Persian moon.—Wide World Magazine.

Not a Quiet Dresser.

Mrs. A.—Your husband always dresses so quietly. Mrs. B.—He does not. You ought to hear him when he loses a collar button. —Cleveland Leader.

WHITE BROS.

The Acorn Base Burners

Save Your Coal

Because They Have the Best Flue Construction

What does this accomplish? Anything more than theory? Yes! The way to heat a room quickly is to circulate the air, bringing it rapidly into contact with the heated surfaces. The Acorn Base Burner will circulate all the air in a 12x15 room 10 foot ceiling, through its base in 54 minutes and leave the top of the stove hot enough to light a match. The larger part of this heat would escape out of the chimney if it were not caught and carried into the room by the circulating flue.

Scene from "Human Hearts" Tonight

BOUGHT 2,000,000

FEET OF TIMBER

Con O'Brien Made Big Purchase of the Shevlin Carpenter Company This Week

IN THE STONY BROOK COUNTRY

Logs Will be Banked on Gilpatrick Lake This Winter and Driven Down Gull River

Con O'Brien and J. M. Quinn were in the twin cities the first of the week and while there negotiated a deal whereby the former became owner of about 2,000,000 feet of standing timber formerly owned by the Shevlin Carpenter company. The timber is located at what is known as the Stony Brook country and the logs, which it is the intention to cut this winter, will be banked on Gilpatrick lake and will be driven down the Gull river. Mr. Quinn will probably look after these and other logging interests for Mr. O'Brien, the same as last year.

Whitman on Reading.

"Reading, most of it, by candlelight, indoors, up against a hot register or steam pipes, is a disease. I doubt if it does any one much good. The best reading seems to need the best open air. When I was down on the creek-Timber creek—and roamed out and along the water, I always took a book, a little book, however rarely I made use of it. It might have been once, twice, three, four, five, even nine times, I passed along the same trail and never opened the book, but then there was a tenth time always when nothing but a book would do—not tree or water or anything else—only a book, and it was for that tenth trip that I carried

LIPTON IS UNDECIDED

But May Again Challenge for the America's Cup.

WILL CONFER WITH FIFE

If Designer Can Plan a Boat That Will Give Baronet a Reasonable Prospect of Success, He Will Issue Another Challenge.

London, Sept. 27.—Sir Thomas Lipton was interviewed after he had learned the reasons why his challenge to race for the America's cup had been declined by the New York Yacht club, and spoke as follows:

"I still have plenty of time to issue another challenge, but all depends upon what I am advised to do. Mr. Fife is coming especially to consult with me on the situation."

"I know the New York Yacht club feels its responsibility and I am quite willing to abide by its decision, as the club certainly understands its business better than anyone else. I cannot help hoping that the existing difficulty may be overcome and that a race will occur in 1908. I will do everything in my power that is reasonable to meet the wishes of our American friends. I am willing to consider most favorably the idea of challenging with a 90-foot boat, if that will be received under the conditions existing in the New York Yacht club, and if Mr. Fife can design a boat which will give me a reasonable prospect of success, and, although such a boat might have to be constructed as a freak boat, even then I would be only too pleased to do it."

WOULD BE ACCEPTED.

Should Lipton Send Challenge in Accordance With Rules.

New York, Sept. 27.—Should Sir Thomas Lipton send another challenge to the New York Yacht club that is in accordance with the deed of gift it is said it probably would be accepted. The challenge, however, if sent, would have to be brought up at a regular meeting of the club and considered by the same committee that rejected the baronet's proposal Wednesday night. The vote to decline Sir Thomas' challenge was unanimous, but there are a number of members in the New York Yacht club who have voiced their opinion that he will not be discouraged in the matter and will send another boat that under the new rule will be the largest and most powerful that the English designers can turn out within the terms of the deed of gift. There is not the slightest doubt among the members of the club, should Sir Thomas propose another challenge in accordance with the new rule, that it will be unanimously accepted.

NOT FIT FOR PUBLICATION

President's Personal Opinion of Oklahoma Constitution.

Washington, Sept. 27.—President Roosevelt has announced that he will approve the Oklahoma constitution. He said he had examined the document with the attorney general and that he felt that the question of his approval ought not to be based on his personal opinion of the document, but upon whether it came within the terms of the enabling act. His personal opinion of the document, the president laughingly said, was "not fit for publication." The promulgation of his approval will be made later.

CREMATED IN HIS HOME.

Minnesota County Official's Body Is Burned to a Crisp.

Crookston, Minn., Sept. 27.—County Commissioner John Driscoll was cremated when his farm residence was burned. All other members of the family escaped. He returned home late at night and the other members of the family did not know he was in the house till his charred remains were found in the ruins. Nothing is known as to the origin of the fire. He was a pioneer of the Red River valley and wealthy.

WILL NOT OPPOSE JOHNSON

Bryan May Favor Candidacy of Minnesota's Governor.

Crookston, Minn., Sept. 27.—Senator Works of Mankato, while in Crookston, said that Governor Johnson will be the next Democratic candidate for president. He believed Bryan would not stand in Johnson's way.

This statement has a particular significance, coming from Senator Works at this time, as Bryan was a guest at Mr. Works' home in Mankato about a week ago.

Bank Cashier Missing.

Helena, Mont., Sept. 27.—C. W. Thurston, cashier of the State bank of Moore, Fergus county, has been disposed, it being alleged that he made wrongful use of the funds of the institution. He has disappeared, and not even his wife, said to be in St. Paul, is aware if his whereabouts. Thurston came to Helena from St. Paul two years ago.

Six Drowned in a Mine.

Prague, Bohemia, Sept. 27.—An influx of water occurred at the Felix mine near Wotowotz. Nine of the fifteen men in the mine at the time were rescued but six were cut off and are reported to have been drowned.

FISH MAKES REPLY.

Declares Charges Made by Harahan Are Old.

New York, Sept. 27.—Stuyvesant Fish Thursday evening made public a reply to the circular letter sent out on Tuesday last by President Harahan of the Illinois Central, in which he declares that the charges made by Mr. Harahan were not new, but had been published long ago and each met by him and disposed of.

"But the one point at issue, to be decided by the stockholders of the Illinois Central at the coming annual meeting, is nowhere touched upon," says Mr. Fish. "That is simply this: Shall the Illinois Central become a mere feeder and fattener of the Union Pacific? Can any such perversion of the purposes and opportunities of the Illinois Central be profitable to the stockholders?" Will Illinois Central stockholders submit to having all of their voice and power in the management and control of their property delegated to one man, under the power of attorney plan, which Mr. Harriman so adroitly used to his own profit?"

Mr. Fish then quotes from the by-laws of the Union Pacific to show how this could be done, and continues:

"A certain interest does, however, attach to some of the specious excuses now put out by Mr. Harriman and his financial associates, for my having been ousted; and there is also interest attaching to the reasons why it has been necessary to change and modify those excuses so often.

"The circular of Sept. 24, which is fathered by Mr. Harahan, shows on its face that it emanates from Mr. Harriman in that it contains precisely the same allegations that he had injected into his testimony before the Interstate commerce commission last February."

WILL ELECT DIRECTORS.

Harriman Faction in Control of the Illinois Central.

Chicago, Sept. 27.—President J. T. Harahan of the Illinois Central has confirmed a statement to the effect that he and Vice President A. G. Hackstaff already have proxies for more than a majority of the entire outstanding issue of stock. When asked if the Harriman faction had 50 per cent of the stock in possession and proxies he replied:

"We already have more than that, but I shall not give any figures."

He also declined to say whether or not the four retiring directors would be re-elected.

State's Attorney Healy said that he now has no intention of looking into Mr. Fish's act.

"I understand," he said, "that Mr. Fish had full authority from the board to lend money to whom he saw fit."

WALTON IS ARRESTED.

Alleged Slayer of Mrs. Grant Caught at Springfield, Ill.

Springfield, Ill., Sept. 27.—Richard Walton, the negro charged with the murder of Mrs. Lillian White Grant in Chicago by strangling her Sept. 18, was arrested here and is being held awaiting orders from Chicago. After his arrest he admitted that he was Walton and also admitted that he was wanted for several minor offenses. A reward of \$600 has been offered for his arrest and conviction. Walton is alleged to have strangled Mrs. Grant at her home while she was moving and robbed her dead body of \$10. He had been hired by the woman to assist her in moving and while they were alone on the second floor of the house it is alleged he killed her.

TAFT'S VISIT TO JAPAN.

Tokio Papers Look Upon It as Being Most Opportune.

Tokio, Sept. 27.—Several of the morning papers publish editorial articles on the approaching visit to Japan of Secretary Taft, who is due here very soon on board the steamer Minnesota. The Hoshi Shimbun, an organ of the Progressive party, says this visit is most opportune at the present juncture, and that it undoubtedly will result in a better feeling for the United States among the masses in Japan, where false reports have caused misunderstanding. The Jiji Shimpou, independent, writes in the same strain and says Secretary Taft probably will be the next president of the United States.

Girl Fatally Burned.

Minneapolis, Sept. 27.—Jennie Olson, a seventeen-year-old girl, was probably fatally burned by an explosion of a wood alcohol lamp upon which she was about to prepare lunch at the cigar factory of Lundgren Bros. The burning oil was thrown over her body and every garment she wore was burned to cinders before her companions could extinguish the flames. How the accident happened no one knows, as the flames suddenly burst forth and completely enveloped her body.

Aeronaut Drowned.

Lake City, Minn., Sept. 27.—Arthur Traynor, aeronaut with a St. Paul carnival company, fell into Lake Pepin while making a balloon ascension and was drowned. The accident occurred within half a block from the shore. Traynor resided in Minneapolis and had a wife and two children.

Lusitania at Queenstown.

Queenstown, Sept. 27.—The steamer Lusitania has arrived here, having made the eastward passage across the Atlantic in 5 days, 4 hours and 19 minutes, an average speed of 25½ knots, and the record for the Eastern passage across the Atlantic.

PARADISE FOR ALIENS

San Francisco to Have Finest of Immigrant Stations.

WILL BE A COMPLETE VILLAGE

Surrounded by Walks and Roads, Angel Island Station Will Have Its Own Lighting and Power Plants, Hospitals, Stores and Hotels.

San Francisco bay is to have the finest immigration station in the world, writes Louis J. Stellmann in the San Francisco Chronicle. In another year Angel Island, now almost uninhabited, will be a very lively place. Upon it will be erected a model village, which, if present plans are carried out, will be the cleanest, best arranged and in all respects the finest and healthiest immigration station ever established even by Uncle Sam, whose hospitality to aliens is famous. Indeed, the newcomers from foreign shores will probably think they have struck paradise when they emerge from the steerage quarters of an ocean liner and land at the summer resort which the immigration bureau has provided for them.

Here is how it all came about: Some years ago congress passed a resolution asking Secretary Victor Metcalf to investigate the growing immigration demands of the Pacific coast and report thereon. Metcalf did a thorough job of it—so thorough that he made congress see the needs of San Francisco through the eyes of her own people. Congress was so impressed that it immediately appropriated \$200,000 as a starter for the work and accepted the bid and plans of Walter J. Mathews, a California architect.

Mathews took a trip east and visited the big Ellis Island station, secured data and information from headquarters and returned to draft a set of plans and specifications which Commissioner General of Immigration Sergeant endorsed as the best and most complete he had ever seen. According to work was begun without delay and is now well under way. The big dock, where vessels of the greatest draft may tie up without difficulty, has been completed, and the task of grading is now being pushed as rapidly as possible.

The Angel Island station will be a complete village, surrounded by walks and roads for every purpose, having its own lighting and power stations, waterworks, hospitals, stores and hotels, so to speak, and will be constructed with the strictest regard for sanitation that is possible. It will have a capacity for handling from 2,000 to 2,500 immigrants and sleeping and feeding accommodations for 1,000.

The principal building will be the administration building, close to the water front. This is designed for the receiving and discharging of immigrants. It contains separate dining rooms for Europeans, Chinese and Japanese, for employees, visitors and officers, a baggage room, offices of the custom inspector, board of inquiry, Chinese Inspector, commissioner of immigration, etc., as well as Chinese and Japanese detention departments.

Immigrants are first received and taken to an examination room, divided into compartments separated by iron railings. The Chinese and Japanese are separated from the Europeans, and the women of the latter class are also received in a separate compartment. Here, under a skylight, the first test for trachoma, the dreaded Asiatic eye disease, is made, and if suspicious are aroused which render further examination necessary the applicants for admission thus classified are passed on to the physicians' quarters, where, from a waiting room, they pass to a private examination room equipped with every late appliance for the examination of patients.

If found to be diseased—unless the disease be contagious—the applicant is placed in the hospital and detained to await developments. If at the end of a certain time it is found that he cannot pass the physical requirements for admission to the country, he is deported. If suffering from a contagious disease, he is of course deported at once unless his life would be endangered by such action.

If the applicant passes the first test, he goes into another room, divided into compartments according to his manifest, which gives his mental, moral and financial qualifications. Here he is subjected to a further examination and if passed goes to the baggage room, where he receives his property and proceeds on his way rejoicing to the realms of Uncle Sam.

If not passed, he is transferred, if an Asiatic, to the oriental quarters, some distance away, until his case has been decided. If a European, he goes to the Caucasian quarters on the second floor of the administration building. Here the sexes are again separated and the detained immigrants confined until permitted to leave by the authorities. The same method is followed in the case of Asiatics after they have been transferred to the quarters allotted to them.

The Europeans sleep in a dormitory on the second floor of the main building and will have excellent accommodations, including baths, lavatories and showers, a roof garden for dally exercises and most of the conveniences of a first class hotel. On the same floor of the administration building are also sleeping quarters for visitors to the station, quarters for resident physicians and the commissioner of immigration. These are in a wing entirely separated from the immigrant quarters. On this floor are also a dormitory for the employees with all modern conveniences, the board of inquiry rooms for the examination of European immigrants, baths, lockers for both

sexes among the employees, etc. A feature of this building is that the Asiatic and European business is segregated in different wings. All immigrants are received and discharged without interfering with each other in any possible way, and the handling of two classes is thus very greatly expedited.

The administration building, which has a frontage of 200 feet and a total depth of 300 feet, is practically a hotel in all its appointments, with kitchens, servants' quarters, storerooms and other departments of the great modern hotel.

The oriental quarters are situated on a hill not far away and connected with the main building by a covered bridge which crosses the principal roadway, giving immigrants confined therein access to the oriental dining room in the administration building without entering the grounds. The oriental building is a two story structure. One story is devoted to the Japanese, which are divided as to sex, and the other floor is given up to Chinese immigrants in the same way. Both floors have large dormitories for men and women, each with separate baths, sitting rooms, etc. The perfect scheme of sanitation in vogue at the administration building also prevails in the oriental quarters, which get lots of sunshine and a splendid marine view on account of its higher position on the island. Open air exercise is also permitted the orientals upon a sheltered promenade, where the refreshing breezes of the Pacific will make walking delightful.

The hospital is a two story building, detached, some 250 feet from the other buildings and located on the high ground. It is particularly arranged for the admission of sunlight and will be as complete in every way as the most modern hospital in the world. The first floor will contain the offices of the hospital managers, the private dining room, officers' dining room, storeroom, disinfecting room, contagious ward and sleeping room for employees. On the second floor will be a ward for Chinese men, for Japanese men and for Chinese and Japanese women, the latter divided by a partition, separating the nationalities, who will be attended according to their particular needs, an interpreter being in each ward.

There will also be a ward for Europeans in a wing of the building separate and distinct from that containing the oriental wards. Here separate wards for the two sexes are provided also, each having its own bathrooms, toilets and other conveniences of the latest kind. On the second floor of the hospital, besides the wards for Europeans and Asiatics, are located the operating room and physicians' and nurses' room. The operating room will be one of the most up to date and best equipped in America, with especial appointments and apparatus for the treatment of diseases usually found among immigrants.

The power house will contain two powerful boilers and an engine room fitted with two condensing engines of the most recent type, having a total horsepower of about 150. A high power dynamo will also be installed here to light the hundreds of incandescents that are to illuminate the station.

There will be many street lights, and each room in all the various buildings of the model village will have its full complement of electrolights.

There will be a laundry completely fitted up with modern appliances, where all the washing of the station will be expeditiously handled. The power house and laundry will be of concrete, while the other buildings are to be of frame construction with concrete foundations. The big wharf will be brilliantly lighted at night and will contain a lighthouse and fog bell to warn mariners of treacherous rocks and shoals. The administration building is to be heated by steam, while a hot water heating system will be installed in the hospital.

The water problem, which threatened to present a serious difficulty when first considered, has been solved by Mathews. There will be two reservoirs, one containing fresh water brought from a spring which is now being developed, the other containing salt water pumped from the bay. The salt water will be used for bathing purposes in the Asiatic quarters and the fresh water for cooking and drinking purposes.

The task of building the model immigration station has presented many difficulties, chiefly on account of the irregular formation of the island and the necessity of bringing everything in by boat. However, these are being overcome, and it is probable that another year will see the station completed. Landscape gardeners are already engaged in laying out the grounds, which will be as artistically beautiful as they can be made and will present a very pleasing sight to passing vessels. Probably half a hundred or so will constitute the resident force of employees, and a regular ferry service will probably be established when congress passes the necessary appropriation, as it has promised to do at the next session.

Big Potato Yield.
This is potato year for the farmers of Lancaster county, Pa. In the number of tubers raised and in the yield per acre the present season will establish a new record. Yields of from 250 to 300 bushels to the acre have been recorded in previous seasons, but this year the farmers have reached the 600 figure, and in one instance a yield of 600 bushels to the acre is reported, says the Philadelphia Record. This crop was raised by Ludwig T. Custer of Adamstown. The potatoes were of the Early Rose variety. As evidence of the yield of potatoes this summer two potatoes planted by Samuel Fastnacht of Mount Joy grew a crop of half a bushel.

STRIKE WILL BE ENDED.

President Small Says Agreement Soon Will Be Reached.

St. Louis, Sept. 27.—National President Samuel J. Small, who is here to confer with Commissioner of Labor Charles P. Neill and officers of the Order of Railway Telegraphers, said:

"The leased wire operators under contract will not be called out. The action in New York is based on a purely local condition and was referred to the executive board, of which I am chairman. It is the sense of this board that all contracts must be respected."

President Small said also that an agreement with the companies will be reached within the next ten days and the strike ended.

OPPOSED TO THE PLAN.

Executive Board of Telegraphers' Union Will Not Extend Strike.

Chicago, Sept. 27.—Three members of the national executive board of the telegraphers' union declared Thursday that they would vote against calling a strike of union operators employed in brokers' and newspaper offices, in which event, being a majority of the board, the request of the striking New York operators will be refused. No official action has been taken for the reason that no communication has yet been received from the New York local. The members who oppose the strike are M. J. Reidy, S. J. Konenkamp and J. M. Sullivan.

FROM STRIKING OPERATORS

President Roosevelt Has Consented to Receive Some Documents.

Washington, Sept. 27.—President Roosevelt said Thursday that he had consented to receive some documentary statements from the striking telegraph operators and that when these are in his hands he would undoubtedly call into consultation Commissioner of Labor Neill. Further than this he said no arrangements had been made for any conference regarding the strike.

Killed by an Automobile.

Newark, N. J., Sept. 27.—Marcus J. Jacobs, manager of the Columbia theater here, was run down and killed by an automobile as he was crossing Broad street. The machine was going at a high rate of speed and did not stop after the accident.

Siberian Post Robbed.

Tobolsk, West Siberia, Sept. 27.—The post was held up a few miles from here Thursday and the postman in charge was killed by a band of robbers, who got away with \$30,000.
